A BIBLIOGRAPHY OF RESEARCH ON TUNAS

for the years 1957-1960

Compiled by
R. Kuennen
under the supervision of
Fisheries Biology Branch, FAO

FISHERIES DIVISION, BIOLOGY BRANCH
FOOD AND AGRICULTURE ORGANIZATION OF THE UNITED NATIONS
Rome, October 1961

FAO FISHERIES DIVISION BIOLOGY BRANCH DOCUMENTS

Three series of documents are issued by the Biology Branch. These are not official FAO publications; they are given a restricted external distribution and this fact should be indicated if they are cited. Most of the documents in these series are prepared as working papers for meetings, or are summaries of information for the use of member governments, organizations, and specialists concerned. The series are:

FAO Fisheries Biology Report	FB/R (No.)
FAO Fisheries Biology Synopsis	FB/S (No.)

Special groups of synopses are identified by the following symbols:

CART	Information concerning the living aquatic resources of certain countries and regions
SAST	Data concerning certain species and fish stocks
MAST	Methods and subjects synopses
OT	Oceanography synopses
IT	Limnological synopses

FAO Fisheries Biology Technical Paper FB/T (No.)

Special groups of Technical Papers are identified by the following symbols:

RE	Indexed lists of names and addresses of experts drawn from the Register of Experts maintained by Biology Branch
CB	The World List of Periodicals for Aquatic Sciences and Fisheries, Meetings and Activities Sections from and the Handbook for the Current Bibliography for Aquatic Sciences and Fisheries, special bibliographies (see back of title page) and technical papers concerning documentation and bibliographic problems

Numbers following the symbols are for classifying the document, using the codes of the indexes to the Current Bibliography for Aquatic Sciences and Fisheries.

Some documents may carry other identification numbers, if, for example, they have been contributed to a meeting for which papers have been marked according to another system; in requesting copies it is sufficient, however, to quote the "FB" number given at the top right-hand corner of the title page.

FAO Fisheries Biology Technical Paper No. 16 FB/T16
(Distribution restricted) CB-Special Bibliographies

A BIBLIOGRAPHY OF RESEARCH ON TUNAS for the years 1957-1960

Compiled by
R. Kuennen
under the supervision of
Fisheries Biology Branch, FAO

FISHERIES DIVISION, BIOLOGY BRANCH
FOOD AND AGRICULTURE ORGANIZATION OF THE UNITED NATIONS
Rome, October 1961

PURPOSE OF THIS SERIES

This is one of a group of Technical Papers (see inside front cover) in which are listed and classified references to documents dealing with the title subject. Each list is compiled from the Current Bibliography for Aquatic Sciences and Fisheries and other sources available to Biology Branch. Extra copies can be obtained by application to:

Technical Officer
Biology Branch, Fisheries Division
FAO, Rome, Italy

PREPARATION OF THIS PAPER

This first draft contains references to documents entered in Current Bibliography for Aquatic Sciences and Fisheries and covers publication years 1957 to 1959 and part of 1960. The references are classified according to the code used for preparation of subject indexes to the Current Bibliography, and under each subject heading are taxonomically classified down to genera. A geographic index is included in which the serial numbers of entries are classified by broad sea areas. Readers are invited to cooperate in the eventual revision of this list by submitting additional references for years 1957-59, if possible with annotations.

Distribution:

FAO Fisheries Division
FAO Regional Fisheries Officers
Regional Fisheries Councils and Commissions
Prospective contributing institutions to the World Scientific Meeting on the Biology of Tunas and Related Species
FBCB "short-all" mailing list

"Current Bibliography" Entry:

Kuennen, R. (Comp.) (1961) 61-12464 M
Tech. Pap. Fish. Biol. Br. FAO, (16)31 p.
A bibliography of research on tunas for the years 1957-1960

Serially numbered list of references arranged subjectwise, thence taxonomically and in alphabetic order of authors' names, with geographic index.

Project No.
2.12/4

A BIBLIOGRAPHY OF RESEARCH ON TUNAS for the years 1957 - 1960

GENERAL BIOLOGY

Thunnus

001 Akyüz, E. F. and I. Artüz (1957)
Proc. gen. Fish. Coun. Medit., (4):93-9
Some observations on the biology of tuna (Thunnus thynnus) caught in Turkish waters

002 Anonymous (1958)
France pêche, 3(22):55-6
Fiche technique du thon rouge et du hareng (Card technique of red tuna and herring)

003 Bræckkan, O. R. (1958)
Nature, Lond., 182:1386
Vitamin B_{12} in marine fish

004 Vilela, H. and J. S. Pinto (1958)
ICES Scombriform Fish Committee, no. 84: 7 p.
Sur les thons qu'on pêche au Portugal (On tunas caught in Portugal)

Katsuwonus

005 Anonymous (1958)
Comm. Fish. Rev., 20(9):56-61
Pacific oceanic fishery investigations -- Annual report for fiscal year 1958

006 Anonymous (1958)
Fish. News Lett. Aust., 17(3):27
Queensland research on three fishes

Germo

007 Anonymous (see 002)

008 Pacific Marine Fisheries Commission (1958)
Portland, Oregon, 32 p.
7th annual report for the year 1957.

Neothunnus

009 Anonymous (1959)
Nature, Lond., 184(4690):855
Sea fisheries research in East Africa

Parathunnus

010 Mather III, F. J., and R. H. Gibbs, Jr. (1958)
Copeia, (3):237-9
Distribution of the Atlantic bigeye tuna, Thunnus obesus, in the western North Atlantic and the Caribbean Sea

Thunniformes

011 Anonymous (1957)
Fish. News Lett. Aust., 16(9):9
Points from C.S.I.R.O. fisheries report

012 Arena, P. (1959)
Proc. gen. Fish. Coun. Medit., 5(71):501-4
Observations accomplies pendant la saison de pêche 1958 dans une madrague le long des côtes de la Sicile (Observations made during the 1958 fishing season in a tuna trap on the Sicilian coast)

013 Gordon, B. L. (1960)
Watch Hill, R.I., 136 p.
A guide book to the marine fishes of Rhode Island

014 Hamre, J. (1958)
ICES Scombriform Fish Committee, no. 91:6 p.
About the age composition of Norwegian tuna catches in the years 1954-58

(Thunniformes, cont'd)

Meyer-Waardon, P. F. (1958) 015
ICES Scombriform Fish Committee, no. 104:4 p.
German investigations on the North Sea tuna population

Navaz, J. M. (1958) 016
ICES Atlantic Committee, no. 26:4 p.
Poissons rares sur la côte Basque d'Espagne (1946-1957) (Rare fishes of the Basque coast of Spain, 1946-1957)

Park, K., D. W. Hood, and H. T. Odum (1958) 017
Publ. Inst. Mar. Sci. Univ. Tex., 5:47-64
Diurnal pH variation in Texas bays and its application to primary production estimation

SYSTEMATICS

Thunnus

Klawe, W. L., and B. M. Shimada (1959) 018
Bull. Mar. Sci. Gulf Caribb., 9(1):100-15
Young scombroid fishes from the Gulf of Mexico

Klawe, W. L. (1959) 019
Ciencia, Mex., 18(11-12):245-7
Nuevo examen de atunes jovenes capturados frente a la costa occidental de México durante la quinta expedición George Vanderbilt (1941) (Re-examination of young tunas caught near the west coast of Mexico during the fifth George Vanderbilt expedition, 1941)

Vilela, H. and R. Monteiro (1959) 020
Bol. Pesca, 12(64):11-54
Sobre atunes de Angola (On Angola tunas)

Auxis

Jones, S. (1958) 021
Indian J. Fish., 5(1):189-94
Notes on the frigate mackerels, Auxis thazard (Lacépède) and A. tapeinosoma Bleeker, from Indian waters

Klawe, W. L. and B. M. Shimada (1959) 022
(see 018)

Matsumoto, W. M. (1958) 023
Fish. Bull., U.S., 58:31-72
Description and distribution of larvae of four species of tuna in Central Pacific waters

Matsumoto, W. M. (1959) 024
Dana Rep., (50)
Descriptions of Euthynnus and Auxis larvae from the Pacific and Atlantic Oceans and adjacent seas

Matsumoto, W. M. (1960) 025
Pacif. Sci., 14:173-7
Notes on the Hawaiian frigate mackerel of the genus Auxis

Katsuwonus

Cushing, J. E., and G. L. Durall (1957) 026
Amer. Nat., 91:121-6
Isoagglutination in fish

Hennemuth, R. C. (1959) 027
Bull. interam. trop. Tuna Comm., 3(6):241-304
Morphometric comparison of skipjack from the central and eastern tropical Pacific Ocean

(Katsuwonus, cont'd)

Matsumoto, W. M. (1958) 028
(see 023)

Munro, I.S.R. (1958) 029
Fish. News Lett. Aust., 17(10):17-20
Handbook of Australian fishes

Germo

Kurogane, K., and Y. Hiyama (1958) 030
Rec. oceanogr. Wks Jap., 4(2): 200-9
Morphometric comparison of the albacore from the Northwest, the Equatorial and the Southwest Pacific

Kurogane, K., and Y. Hiyama (1957) 031
Rec. oceanogr. Wks Jap., 4(1): 67-75
Morphometric characteristics of the albacore, Germo germo, from the Northwest Pacific

Vilela, H. and R. Monteiro (1959) 032
(see 020)

Euthynnus

Ben-Tuvia, A. (1959) 033
Fish. Bull. Haifa (19):16-7
(Know your fish)

Klawe, W. L., and B. M. Shimada 034
(see 018)

Matsumoto, W. M. (1958) 035
(see 023)

Matsumoto, W. M. (1959) 036

Comm. Fish. Rev., 21(1):1-12
A survey of the American and Japanese albacore tuna fisheries in the Pacific through examination of catch statistics

Vitlov, V. (1958) 426
Morsk. Ribarst., 10:258-9
pončna iskustva ribara-praktičara (The data of tuna fishing in period 1956-58)

Yamashita, D. T. (1958) 427
Fish. Bull., U.S. 58:253-78
Analysis of catch statistics of the Hawaiian skipjack fishery

Vessels

Anonymous (1959) 428
Comm. Fish. Rev., 21(10):61
Japan - Build more tuna long-liners

Anonymous (1959) 429
Comm. Fish. Rev. 21(10):61
Japan -- Shipyard designs more efficient tuna long-liner

./.

Fisheries Technology

Hayes, O. B., and G. Rose (1957) 430
J. Amer. diet. Ass., 33:26-9
Supplementary food composition table

Juhl, R. (1959) 431
Proc. Gulf. Caribb. Fish. Inst., 11(1958):120-3
Canning tuna in Puerto Rico

Minder, L. P. (1958) 432
Ryb. Khoz., (3):60-1
Vliianie zamachivaniia miasa pelamidy na kachestvo poluchaemoi iz nego produktsii (Effect of soaking the flesh of skipjack on the quality of the final product)

Economics on Fishing

Anonymous(1959) 433
Comm. Fish. Rev., 21(9):75
Japan - Price of tuna fishing rights rising steeply

LEGISLATION

National Canners Association (1959) 434
Fish. Inf. Bull., 9 October: 121-4
Contains summary of status of fisheries legislation before the 86th US Congress
Exchange of US and USSR scientists; developments in French West Africa tuna fishery, Dakar landings, and Belgian shrimp fishery in N. Sea
